DEBRIEFING	
Clouds	Scattered
Precipitation	None
Light Conditions	Bright
Visibility	Vis10
Terrain	Flat
Ground Cover	Moderate
Wind Speed	Calm
Remarks:	Signal was detected approximately 3 miles west of Indian Beach, NC. After about 45 minutes of narrowing the signal down, it was determined to coming from the vicinity of a mobile home in Trade Winds Mobile Home Park, Indian Beach, NC. After getting permission to check around the area, the EPIRB was found to be secreted in a rose bush and could not be seen until actually looking down upon it. The team did good job following UDF procedures. Good mission, a lot was learned and in some cases relearned.
Debriefing Officer	Debriefing Date/Time 7/30/2016 3:08:00 PM
